

HENRIK VIBSKOV

Copenhagen, September 2021

To Whom It May Concern:

Sofia Munk has served a fulltime internship in the design department at Henrik Vibskov for 6 months from February 2021 until August 2021.

During her internship Sofia has been hands on in the creation of the artworks for prints and knits for the SS 22 studio and SS 22 key collections. Sofia has also been working on designs for woven textiles in photoshop and illustrator. Besides, Sofia has helped with a big variety of tasks, from technical drawings in Illustrator, documents for the textile production as well as collection overviews for the look books and helping archiving collections.

Sofia has a refined flair for understanding details and finding technical solutions that contributes to a good product development. She enters all projects and challenges with a great independence and enthusiasm and combines work with a contagious positive attitude. During a precarious time because of the Covid19 pandemic, Sofia 's work has been completely invaluable to the studio and team.

Sofia is also a very reliable and conscientious person; she has a great team spirit and can naturally motivate a group to do the best to reach the common goal.

I thank her for all the work and give her my full recommendation and all the luck she will ever need.

Best regards,
